June program begins:
Saturday, June 7
at 6:30 p.m.

Airs throughout the month
Mon. 8:00 p.m.
Tues. 5:00 p.m.
Wed. 6:30 p.m.
Sat. 9:00 p.m.
Sun. 10:30 p.m.

In the Works

Improving City Water and Streets

Work is expected to be completed the first week of June on a project to slurry the streets in Samarkand, San Roque, at the waterfront, and the area above the Montecito Golf Course. The slurry seal will provide a new wearing surface that will seal the streets from water penetration, and is expected to last five to seven years.

The City of Santa Barbara is one month ahead of schedule for the \$12.7 million Water Quality Improvement Project at the Cater Water Treatment Plant. The project will modernize and renew aging equipment to improve the quality of the water delivered to Santa Barbara homes and businesses. Critical elements that needed to be constructed prior to the dry summer months have been completed early.

With the completion of the Street Crosswalk Replacement Project, pedestrians and motorists alike can now enjoy more attractive crosswalks on the 400 and 500 blocks of State Street, and at the intersection of State Street and Cabrillo. New brick pavers now replace the cracked and unsightly tile surfaces of the old crosswalks.

Two Haulers Will Serve Santa Barbara

The City of Santa Barbara is working to become the recycling leader in the State of California. To help meet that goal, two haulers instead of one will soon provide trash and recycling services to local residents. Starting the week of June 9th, MarBorg Industries will begin providing solid waste collection services to the eastern half of the City of Santa Barbara.

There will be no change in price, and no change in the volume of material collected. Residents will still receive their bills from the City, regardless of which company handles their refuse and recycling.

For the past several months, City Solid Waste staff has been working with MarBorg and BFI to ensure a smooth transition. As illustrated by the map below, MarBorg Industries will service residents in Zone 2, the area to the east and north of State Street. BFI will continue to service residents in Zone 1, the area to the west and south of State Street.

Please direct any questions to MarBorg Industries at (805) 963-1852, or to BFI at (805) 965-5248.

What Is/Is Not Recyclable?

As a reminder, materials that **ARE ACCEPTED** in the City's Recycling Program include: office paper, newspaper and inserts, shredded paper, glass bottles (any color), #1 PET plastic containers (i.e. soda and water bottles), #2 HDPE plastic containers (i.e. milk and water jugs), metal cans, tin cans, aluminum cans, aluminum foil, aluminum pie trays, cereal box-type paperboard, cardboard boxes, cardboard egg cartons, opened junk mail, magazines, catalogs, and paper grocery bags.

Materials that **ARE NOT ACCEPTED** in the City's program include: food waste, plastic grocery bags, light bulbs, window glass, plastic flower pots, toilet paper, tissue paper, paper towels, paper plates, plastic utensils, broken toys, Styrofoam, Styrofoam egg cartons, and milk cartons.

Need Large Item Pick-up? Call!

All residential customers in the City of Santa Barbara can choose one day each year for BFI or MarBorg to pick up large items for disposal and recycling.

Benefits of the Large Item, On-Call Collection program include:

- Customer chooses the preferred day of collection.
- Helps eliminate unnecessary storage of debris at the home, which may create health and safety issues.
- Helps eliminate illegal littering and scavenging of public streets.
- Helps eliminate illegal dumping and importation of trash on public streets.
- Most importantly, the program recycles the majority of materials collected.

Materials for recycling can include: wood, tools, metal, water heaters, wooden furniture, mattresses, washers and dryers, yard waste, cardboard, books, magazines, and bicycles. BFI and Marborg will then dispose of bulky goods in accordance with the following hierarchy:

- Reuse as is (if energy efficient)
- Disassemble for reuse or recycling
- Recycle
- Disposal

Single-family residents are encouraged to take advantage of this opportunity to get rid of things that have piled up in their backyard or garage. To schedule annual collection of large items, residents in Zone 1 (see map on front page) should call BFI at (805) 965-5248. Residents in Zone 2 should call MarBorg at (805) 963-1852.

Customers may place at curbside an unlimited amount of material, as long as it meets these criteria:

- Items must be bagged, boxed, or bundled (except appliances).
- No item should exceed more than 60 pounds, or four feet in length.
- Limited to no more than two of any item (i.e. two toilets, two washing machines, etc.)

Items that can be put out for collection include, but are not limited to: wood, tools, metal items, plastics, empty water heaters, empty water softeners, furniture, mattresses, box-springs, washers and dryers, yard waste, cardboard, books, magazines, mirrors, toilets, sports equipment, bicycles, dishes, garden tools.

Can't Touch This!

The following items are NOT acceptable for annual pick by BFI or MarBorg. Please do not include any of the following, as they will not be collected: Regularly-generated garbage (i.e. food waste), tires, car parts, construction material, air conditioners with freon, refrigerators, concrete/dirt/asphalt, hazardous material (motor oil, paints/thinners, etc.), tree trunks, or sliding glass doors. Again, do not put any of these items out for annual collection.

Celebrate Independence Day
Friday, July 4th!

A fireworks display off of West Beach begins at 9:00 p.m.
Join America in commemorating our nation's 227th birthday.
